

SPLIT

DISPLAY MANAGEMENT FOR INDUSTRY

A solution designed for SCADA systems, control rooms, and other supervision environments
allowing you to manage and display multiple information sources on multiple screen and devices

**SCREEN SPLIT
&
MULTI SCREEN**

**MULTIPLE
MEDIA SOURCE
TYPES**

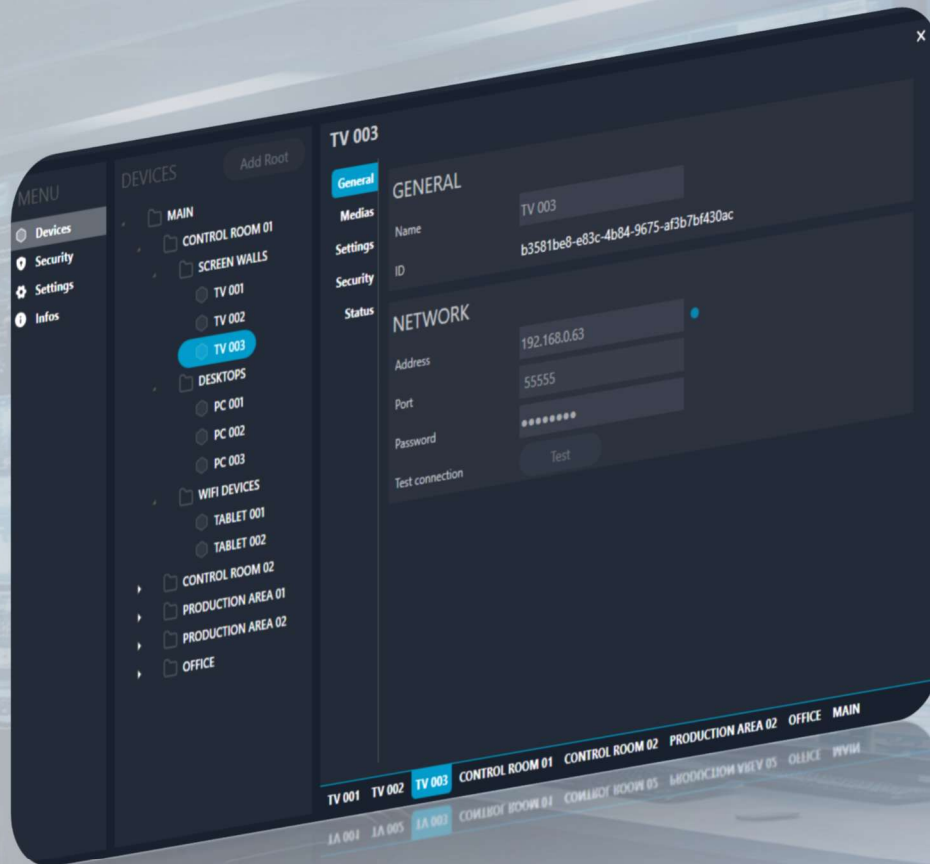

**VARIOUS
THIN CLIENTS
SUPPORTED**

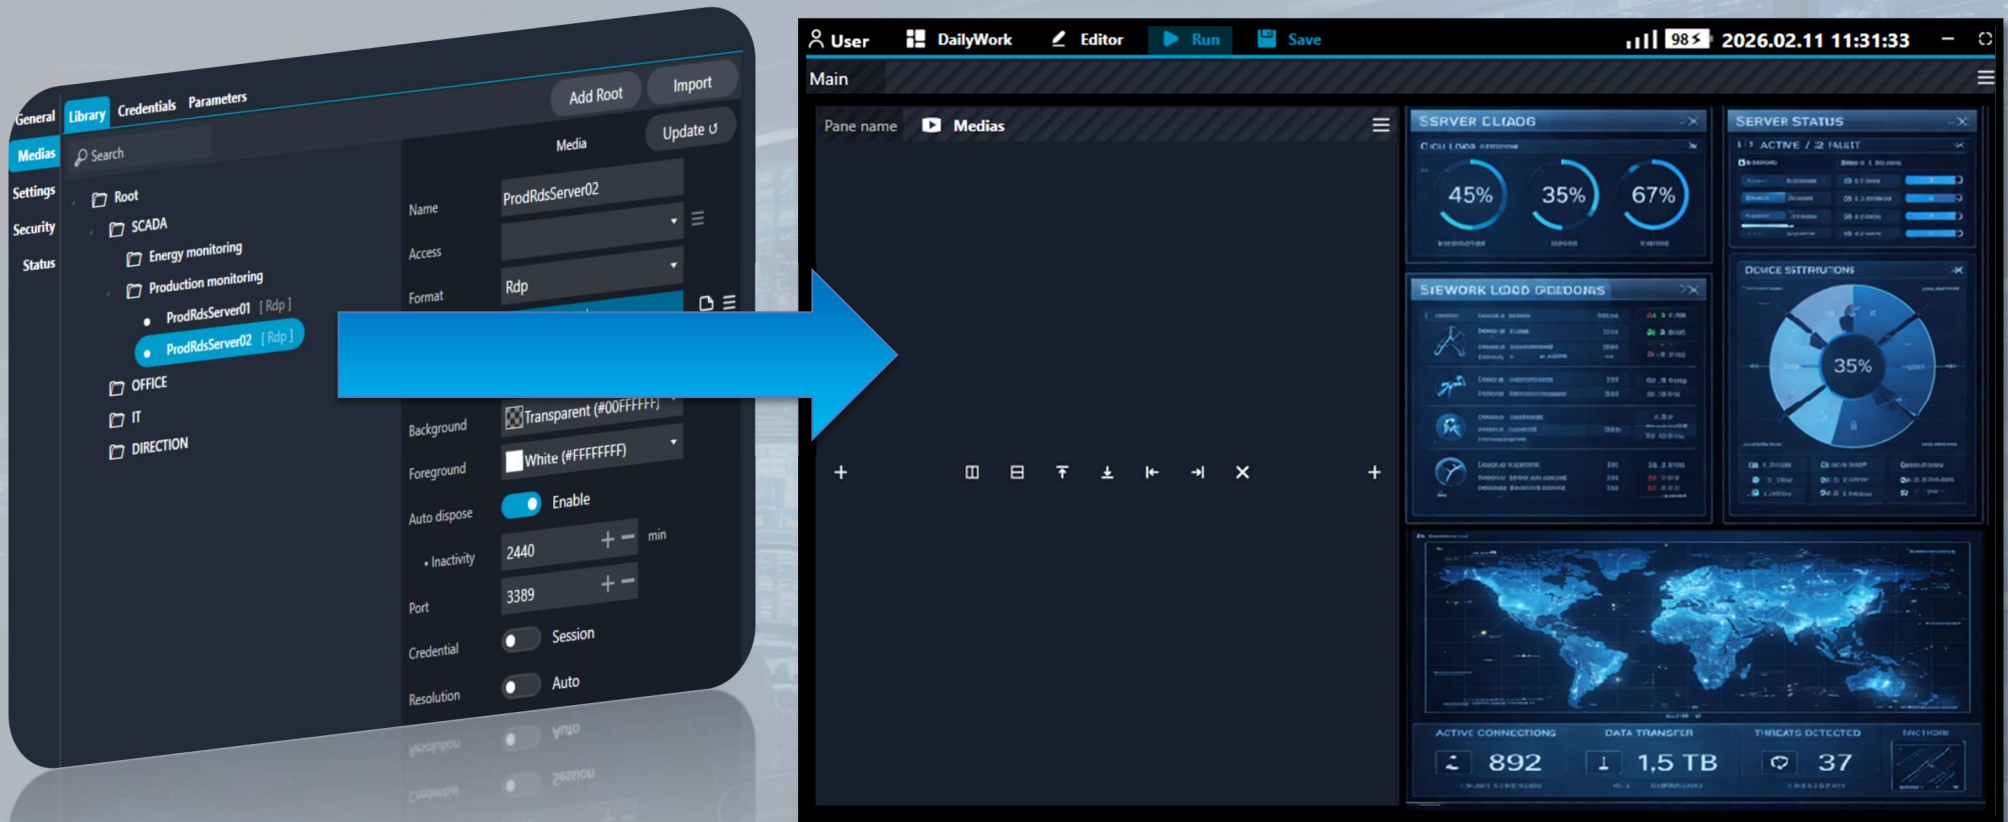

**SECURE
&
CENTRALIZED**

HOW SPLIT WORKS ?

- Configure thin client applications as standalone machines or from a centralized manager
- Define your infrastructure with the manager and deploy configurations to various devices

SCREEN CONFIGURATION

- Configure media sources (Format, Address, Credentials, ...)
- Dispatch media into screen areas
